

Amendment to Specification

Please replace the last paragraph on page 4 which begins “One preferred embodiment of the invention” with the following paragraph:

One preferred embodiment of the invention is shown in Figure 1. An entrails removal instrument 10 is illustrated. The instrument includes an elongate body 26, an end section 24 and a plurality of tines 12, 13, and 14 emanating from the end section of the instrument. It is not necessary that all of the tines emanate from the end section, some may emanate from the portion of the body adjacent to the end section such as tine 15 emanating away from the end section and away from the sides.
